Foreword	1
Eastern Snow Conference Committees	2
Recent Trends in Improvement of Winter Precipitation Measurements by Walter T. Wilson	3
Date on Ice Thickness by Henry W. Stevens	7
Climatological Analysis of Snowfall Thresholds by H.C.S. Thom	20
Snow-Surveying Methods - Round Table Discussion Chairman, Bryant Hopkins	30
Annual Snowfall in Eastern Canada by J. G. Potter	35
Volumetric Forecasts of Snow-Melt Floods of the Lake St. John Watershed by A.N. Andrew	48
Reappraisal of Snow-Melt as a Factor in Quebec Streamflow by George S. Cavadias	67
Precipitation Forecasting During the Snow-Melt Period by P. J. Denison and B. A. Power	78
Western States Snow Surveys and Seasonal Water Supply Forecasts by R. A. Work	93
Explorations in Labrador by David C. Nutt	98

FOREWORD

The Eastern Snow Conference is an organization composed of business men, engineers and scientists from Northeastern United States and Eastern Canada interested in the problems of snow, ice and frost. Very reasonable dues of \$1.00 per year are charged and an attempt is made to have the papers presented published and distributed to paid-up members. The group meets every February in New England and the meetings are marked by their informal atmosphere.

The publication of Proceedings, Volume 3, of the Eastern Snow Conference was left in the hands of the Executive Committee. When no single organization appeared to assume publication, it was arranged that two groups represented by the Committee and the Conference, would undertake the job. A great increase in work load forced one group essentially out of the picture and it came down to one organization with an assist by the Conference.

The most credit for the publication of Proceedings, Volume 3, goes to The Shawinigan Water and Power Company, through the work of Messrs. H.M. Finlayson and George H. Scruton. Their interest, care, and attention to ways and means are in this Proceedings, and because of them the Conference bore only a part of the cost. We are indebted to them and their organization for a fine piece of work.

EASTERN SNOW CONFERENCE COMMITTEES

1954

President	H. M. FINLAYSON, Shawinigan Water & Power Co., Montreal, Canada.
Vice-President	CHARLES E. KNOX, U.S. Geological Survey, Boston, Mass.
Secretary	DEAN B. BOGART, U.S. Geological Survey, Albany, N.Y.
Members-at-large	KENNETH J. GRANBOIS, Safe Harbor Water Power Corp., Conestoga, Pa. ERNEST C. JOHNSON, U.S. Weather Bureau, Albany, N.Y. ARTHUR T. SIMMONDS, Connecticut River Power Co., Littleton, N.H.

1955

President	CHARLES E. KNOX, U.S. Geological Survey, Boston, Mass.
Vice-President	LIVINGSTON LANSING, Boonville, N.Y.
Secretary	DEAN B. BOGART, U.S. Geological Survey, Albany, N.Y.
Members-at-large	H. M. FINLAYSON, Shawinigan Water & Power Co., Montreal, Canada. KENNETH J. GRANBOIS, Safe Harbor Water Power Corp., Conestoga, Pa. ARTHUR T. SIMMONDS, Connecticut River Power Co., Littleton, N.H.
