

Eastern Snow Conference

Proceedings of the

1969

Annual Meeting

Proceedings of the
Twenty-sixth Annual
EASTERN SNOW CONFERENCE

February 6, 7, 1969

Portland, Maine

FOREWORD

In keeping with the objectives of the Eastern Snow Conference "to collect, disseminate and analyze data relating to snow and ice", the Executive Committee of the Conference is pleased to submit this copy of Proceedings, Volume 14 in recognition of the Twenty-sixth Anniversary of the Conference.

The Eastern Snow Conference is an informal group of business men, engineers, Foresters, scientists and educators from Eastern United States and Canada, which meets annually at some pre-selected location in New England, New York or Canada. The purpose of these meetings is the interchange of information related to snow, ice, frost, hail and other phenomena associated with the winter season.

The 1969 meeting was held in Portland, Maine. In 1970 the group will meet in Albany, New York on February 12 and 13.

Membership in the Conference is open to all interested individuals. For the modest annual dues of three dollars, each member receives one copy of the Proceedings, together with any other data distributed by the Conference. Additional copies of current Proceedings and copies of many of the back issues are available from the Secretary.

EASTERN SNOW CONFERENCE

TWENTY-SIXTH ANNUAL MEETING, FEBRUARY 6, 7, 1969

CONTENTS

	<u>Page</u>
Foreword	ii
Eastern Snow Conference Officers and Committees	iv
Greetings to Maine By Austin H. Wilkins	1
Suggested Methods for Hydrologic Instrumentation By E. A. Glassey	4
Soil Moisture Priming, Soil Temperature and Water Available for Snowmelt Runoff By A.R. Eschner, R.E. Leonard and A.L. Leaf	19
Design of Operational Programs for Water Yield Management By Ralph Maloney	24
Snowfall Measurement in Respect to Current Weather Conditions By Robert B. Sykes, Jr.	30
Soil Condition Measurements as a Forecasting Parameter By Morlan W. Nelson	42
The Water Content of Snowstorms in New York State: Variations Among Different Physiographic Regions By A. Boyd Pack	46
Meteorological Variables Influencing the Thermal Thrust of an Extending Ice Sheet By Marc Drouin	55
Instant Snow Storms By F. H. Theakston	66
Operational Snow Mapping from Satellite Photography By J.C. Barnes and C.J. Bowley	79
Changes in Snowmelt Runoff After Forest Clearing on a New England Watershed By J.W. Hornbeck and R.S. Pierce	104
Report of ESC EQUIPMENT COMMITTEE - Snow Surveyors Seminar	113
Report of ESC COMMITTEE ON RESEARCH	115
