

Eastern
Snow
Conference

Proceedings of the
1970

Annual Meeting

PROCEEDINGS OF THE
TWENTY-SEVENTH ANNUAL
EASTERN SNOW CONFERENCE

FEBRUARY 12, 13, 1970
ALBANY, NEW YORK

FOREWORD

In keeping with the objectives of the Eastern Snow Conference "to collect, disseminate and analyze data relating to snow and ice", the Executive Committee of the Conference is pleased to submit this copy of **Proceedings, Volume 15** in recognition of the Twenty-seventh Anniversary of the Conference.

The Eastern Snow Conference is an informal group of business men, engineers, Foresters, scientists and educators from Eastern United States and Canada, which meets annually at some pre-selected location in New England, New York or Canada. The purpose of these meetings is the interchange of information related to snow, ice, frost, hail and other phenomena associated with the winter season.

The 1970 meeting was held in Albany, New York. In 1971 the group will meet in Fredericton, New Brunswick, Canada, on February 4 and 5.

Membership in the Conference is open to all interested individuals. For the modest annual dues of three dollars, each member receives one copy of the Proceedings, together with any other data distributed by the Conference. Additional copies of current Proceedings and copies of many of the back issues are available from the Secretary.

Publication of these proceedings was made possible in part by Corporate memberships in the Conference held by the following: Ontario Hydro, Quebec Hydro, N. E. Power, Shawmingan Engineering.

EASTERN SNOW CONFERENCE
TWENTY-SEVENTH ANNUAL MEETING, FEBRUARY 12, 13, 1971

CONTENTS		Page
Foreword		ii
Eastern Snow Conference Officers and Committees		iv
Intergovernmental Planning of Water Resources By Harold G. Wilm		1
Hydro-Climatological Trends and Variability in Mountains of the Western United States By Gregory L. Pearson		6
The Great Lakes Project By H. K. Weickmann, J. Jiusto, G. McVehil, R. Pilie and J. Warburton		18
Aggregation of Ice Crystals Related to the Problem of Heavy Snowfall By J. Podzimek		32
Icing of Wires in Canada By Donald W. Boyd		46
Ice, Snow and Hot Water By Ronald Stewart		58
Beneficial Uses of Thermal Discharge By Sveinbjorn Bjornsson and Ronald Stewart		63
Water Equivalent Measurements with Snow Pillows in the Laurentians By Michel Ferland		67
Patterns of Snow Accumulation in a Forrest Tundra Environment, Central Labrador-Ungava By Bruce G. Thom and Hardy Granberg		76
Snowmelt Measurements and their Use in Synthesizing Snowmelt Hydrographs By K. S. Davar		87
Report of EQUIPMENT COMMITTEE		98
Report of RESEARCH COMMITTEE		99

EASTERN SNOW CONFERENCE COMMITTEES

President

1969-70
David R. Campbell
N.E. Power Service Co.

1970-71
Gaynor P. Williams
National Research Council
Ottawa, Canada

Vice President

Gaynor P. Williams
National Research Council
Ottawa, Canada

D. N. McMullen
Dept. Energy and Resources
Toronto, Ontario

Secretary

Gordon R. Ayer
Dufresne-Henry Engineers
Pine Street, R.F.D.
