

Eastern Snow Conference

Proceedings of the

1971

Annual Meeting

Donald V. Dunlap
12 Seaman Street
New Brunswick, NJ 08901

FOREWORD

In keeping with the objectives of the Eastern Snow Conference "to collect, disseminate and analyze data relating to snow and ice," The Executive Committee of the Conference is pleased to submit this copy of Proceedings. Volume 18 in recognition of the Twenty-eighth meeting of the Conference.

The Eastern Snow Conference is an informal group of business men, engineers, Foresters, scientists and educators from Eastern United States and Canada, which meets annually at some pre-selected location in New England, New York or Canada. The purpose of these meetings is the interchange of information related to snow, ice, frost, and associated with the winter season.

**PROCEEDINGS OF THE
TWENTY-EIGHTH ANNUAL
EASTERN SNOW CONFERENCE**

The 1971 meeting was held in Oswego, New York, in early February. In 1972 the group will meet in Oswego, New York, in early February.

Membership in the Conference is open to interested individuals. For the most annual dues of \$10.00, members receive one copy of the Proceedings, together with any other data distributed by the Conference. Additional copies of current Proceedings and copies of many of the back issues are available from the Secretary.

Publication of these proceedings was made possible in part by Corporate memberships in the Conference held by the following:

FOREWORD

In keeping with the objectives of the Eastern Snow Conference "to collect, disseminate and analyze data relating to snow and ice", The Executive Committee of the Conference is pleased to submit this copy of **Proceedings, Volume 16** in recognition of the Twenty-eighth meeting of the Conference.

The Eastern Snow Conference is an informal group of business men, engineers, Foresters, scientists and educators from Eastern United States and Canada, which meets annually at some pre-selected location in New England, New York or Canada. The purpose of these meetings is the interchange of information related to snow, ice, frost, hail and other phenomena associated with the winter season.

The 1971 meeting was held in Fredericton, New Brunswick, Canada. In 1972 the group will meet in Oswego, New York, in early February.

Membership in the Conference is open to all interested individuals. For the modest annual dues of three dollars, each member receives one copy of the Proceedings, together with any other data distributed by the Conference. Additional copies of current Proceedings and copies of many of the back issues are available from the Secretary.

Publication of these proceedings was made possible in part by Corporate memberships in the Conference held by the following:
