

Eastern Snow Conference

Proceedings of the

1973

Annual Meeting

PROCEEDINGS OF THE
THIRTIETH ANNUAL
EASTERN SNOW CONFERENCE

FEBRUARY 8, 9, 1973
AMHERST, MASSACHUSETTS

FOREWORD

In keeping with the objectives of the Eastern Snow Conference "to collect, disseminate and analyze data relating to snow and ice," The Executive Committee of the Conference is pleased to submit this copy of Proceedings, Volume 18, in recognition of the Thirtieth meeting of the Conference.

The Eastern Snow Conference is an informal group of business men, engineers, foresters, scientists and educators from Eastern United States and Canada, which meets annually at some pre-selected location in New England, New York, or Canada. The purpose of these meetings is the interchange of information related to snow, ice, frost, hail, and other phenomena associated with the winter season.

The 1973 meeting was held in Amherst, Massachusetts. In 1974, the group plans to meet in Guelph, Ontario, Canada, in early February.

Membership in the Conference is open to all interested individuals. For the modest annual dues of five dollars, each member receives one copy of the Proceedings, together with any other data distributed by the Conference. Additional copies of current Proceedings and copies of many of the back issues are available from the Secretary.

Publication of these Proceedings was made possible in part by Corporate Memberships in the Conference held by the following:

Chas. T. Main, Inc., Prudential Center, Boston, Mass. 02199

Hydro Quebec, 75 West Dorchester Blvd., Montreal, Quebec, Canada

New England Power Co., Turnpike Road, Westboro, Mass. 01581

Ontario Hydro, 620 University Ave., Toronto, Ontario, Canada

Shawinigan Engineering Co., Ltd., 620 Dorchester St. West, Montreal, Quebec, Canada

EASTERN SNOW CONFERENCE

THIRTIETH ANNUAL MEETING, FEBRUARY 8, 9, 1973

CONTENTS

	Page
Foreword	ii
Eastern Snow Conference Officers	v
Greetings From Western Snow Conference	vi
The Usefulness of Standard Hydrometeorological Data for Snowmelt Calculations By H. R. Whitely, W. T. Dickinson, and T. Core	1
Use of a Snow Gun for Production of a Model Snow Material By Joseph M. O'Bryne and Donald Haynes	15
A Report on the Variability of Snow Water Equivalent Measurements at a Site By Dale I. Bray	20
Establishing a Snow Survey in the State of Hessen, West Germany By A. R. Eschner and H. M. Bretschel	32
Snow Distribution, Melt and Run-off Characteristics of an Inter-drumlin Swale By Stanley A. Mathewson	36
Operational Snow Sensors By Robert T. Davis	57
A Study of Soil Freezing in Western Massachusetts and Techniques of Measurement By B. O. Wilen, D. L. Mader, and W. P. MacConnell	71
Proposals for Measuring the Thickness of Ice Sheets By Samuel S. Lazier and Michel Metge	92
Snow Management Seems Unlikely in Northeastern Forests By C. Anthony Federer, Robert S. Pierce, and James W. Hornbeck	102

National Weather Service
Boston, Mass.

EXECUTIVE COMMITTEE
NORTH CONTINENTAL AREA

J. Wilson, Boise, Idaho
(Chairman)
L. Cox, Boise, Idaho
P. Farnes, Bozeman, Montana
D. Veal, Laramie, Wyoming
E. Wyldman, Edmonton, Alberta

SOUTH CONTINENTAL AREA

J. Washicheck, Denver, Colorado
(Chairman)
A. Kahan, Denver, Colorado
C. Leaf, Ft. Collins, Colorado
M. Meier, Ogden, Utah
B. Whaley, Salt Lake City, Utah

WESTERN SNOW CONFERENCE

EXECUTIVE COMMITTEE
NORTH PACIFIC AREA

M. Barton, Portland, Oregon
(Chairman)
C. Coulson, Victoria, British Columbia
D. Kuehl, Portland, Oregon
F. Limpert, Portland, Oregon
K. Reed, Portland, Oregon

SOUTH PACIFIC AREA

J. Hannaford, Placerville, California
(Chairman)
R. Brown, Rosemead, California
T. Henderson, Fresno, California
W. Horn, Sacramento, California
L. Peterson, Menlo Park, California

GENERAL CHAIRMAN
P. E. Farnes

P.O. Box 98
Bozeman, Montana 59715

SECRETARY
Robert T. Davis
360 U. S. Courthouse
Spokane, Washington 99201

Bozeman, Montana
February 1, 1973

Dear Eastern Snow Conference Members:

On behalf of the Western Snow Conference, I should like to extend greetings and best wishes for a successful conference at Amherst. The association of scientists dedicated to the study of snow and its related resource is one of the finest anywhere in the world. Even in an age of space travel there are many things we do not know about snow. This resource affects the lives of almost the entire population of the United States and Canada. New ideas and innovations will be necessary to satisfy our expanding population growth. Many of the problems associated with your area are common to ours. I would like to see a more extensive exchange of ideas and research material between our groups. I believe this could be accomplished through an increased distribution of the proceedings. You may wish to discuss this at your business session.

Along this line, I would like to see the possibility of a joint meeting of the Western and Eastern Snow Conferences explored.

We would be pleased to welcome Eastern Snow Conference members at our annual conference at Grand Junction, Colorado, April 17-19, 1973. Plans are tentative for the 1974 meeting at Anchorage; 1975 meeting along the west coast, and a 1976 meeting at Calgary. It may be possible for some of you to be in attendance at these future meetings.

Mr. Robert Davis, our conference secretary, will be in attendance at your annual conference. Feel free to contact Bob if you should have questions relative to the Western Snow Conference.

Again, have a fruitful and rewarding conference at Amherst.

Sincerely,

P. E. Farnes
General Chairman
