

Eastern
Snow
Conference

Proceedings of the

1976

Annual Meeting

PROCEEDINGS OF THE
THIRTY-THIRD ANNUAL
EASTERN SNOW CONFERENCE

FEBRUARY 5, 6, 1976
GLENS FALLS, NEW YORK

FOREWORD

In keeping with the objectives of the Eastern Snow Conference "to collect, disseminate and analyze data relating to snow and ice", The Executive Committee of the Conference is pleased to submit this copy of Proceedings, Volume 21, in recognition of the Thirty-Third meeting of the Conference.

The Eastern Snow Conference is an informal group of businessmen, engineers, foresters, hydrologists, scientists and educators from Eastern United States and Canada, which meets annually at some pre-selected location in New England, New York, or Canada. The purpose of these meetings is the interchange of information related to snow, ice, frost, hail, and other phenomena associated with the winter season.

The 1976 meeting was held in Glens Falls, New York. In 1977, the group plans to meet in Belleville, Ontario, in early February.

Membership in the Conference is open to all interested individuals. For the modest annual dues of five dollars, each member receives one copy of the Proceedings, together with any other data distributed by the Conference. Additional copies of current Proceedings and copies of many of the back issues are available from the Secretary.

Publication of these Proceedings was made possible in part by Corporate Memberships in the Conference held by the following:

Chas. T. Main, Inc., Prudential Center, Boston, Mass. 02199

Hydro-Quebec, 75 West Dorchester Blvd., Montreal, Quebec,
Canada H2Z 1A4

Ontario Hydro, 620 University Ave., Toronto, Ontario, Canada
M5G 1X6

Water Resources Branch, New Brunswick Department of Fisheries
and Environment, Fredericton, N.B., Canada E3B 5H2

EASTERN SNOW CONFERENCE

THIRTY-THIRD ANNUAL MEETING, FEBRUARY 5, 6, 1976.

CONTENTS

	Page
Foreword	ii
Eastern Snow Conference Officers	v
The Evolution of Snowcover in East Central Ontario With Special Reference to the International Field Year for the Great Lakes (IFYGL) and to Stratigraphy By W. P. Adams and D. R. Barr	1
Lake Effect Weather (SNOW) Situations Investigated With Student Field Teams (Abstract) By David N. Eichorn and Robert B. Sykes, Jr.	22
Improving the Data Base of Snow Science By W. P. Adams, B. L. Findlay, and B. E. Goodison	23
Climatology of Snowfall and Related Meteorological Variables with Application to Roof Snow Load Specifications By N. Isyumov and M. Mikitiuk	41
CRREL is Developing New Snow Load Design Criteria for the United States (Abstract) By Wayne Tobiasson and Robert Redfield	70
The Effects of Radiation Penetration on Snowmelt Runoff Hydrographs By S. C. Colbeck	73
Use of Regression Equations and Hydrologic Models for Flood Forecasting - A Case Study By R. J. Adamcyk, J. P. Jolly, and S. I. Solomon	83
An Operational Model for Hourly Snowfall By Joseph D. Sage	98
Satellite Record of Winter Snow Cover in North America and Eurasia 1966-1975 By Donald R. Wiesnet and Michael Matson	129
Multistage Remote Sensing of Snowcover in the Adirondacks - A Progress Report By S. D. Shupe, D. Meisner, and A. R. Eschner	145

	Page
Whiteface and the 1980 Olympics By S. Heidenreich	153
The Influence on Relief and Vegetation on Snow Deposition in the Alps with Special Regard to the Effects on Skiing Areas By G. Fiebiger	156
* Ground Snow Distribution and Spring Runoff in a Partially Urbanized Basin By Dwayne G. McMurter	163
List of Studies in Progress By Eastern Snow Conference Research Committee	172
Selected Bibliography - 1976 By Eastern Snow Conference Research Committee	183
Report of Equipment Committee	188

* 1976 Student Prize for Snow Research

EASTERN SNOW CONFERENCE OFFICERS

President

1975-76
R. B. B. Dickison
University of New Brunswick
Fredericton, New Brunswick
