PROCEEDINGS OF THE  
THIRTY-FOURTH ANNUAL  
EASTERN SNOW CONFERENCE

FEBRUARY 3, 4, 1977

BELLEVILLE, ONTARIO

In keeping with the objectives of the Eastern Snow Conference "to collect, disseminate and analyze data relating to snow and ice", the Executive Committee of the Conference is pleased to submit this copy of Proceedings, Volume 22, in recognition of the Thirty-Fourth meeting of the Conference.

The Eastern Snow Conference is an informal group of businessmen, engineers, foresters, hydrologists, scientists and educators from Eastern United States and Canada, which meets annually at some pre-selected location in New England, New York, or Canada. The purpose of these meetings is the interchange of information related to snow, ice, frost, hail, and other phenomena associated with the winter season.

The 1977 meeting was held in Belleville, Ontario. In 1978, the group plans to meet in Hanover, New Hampshire, in early February.

Membership in the Conference is open to all interested individuals. For the modest annual dues of five dollars, each member receives one copy of the Proceedings, together with any other data distributed by the Conference. Additional copies of current Proceedings and copies of many of the back issues are available from the Secretary.

Publication of these Proceedings was made possible in part by Corporate Memberships in the Conference held by the following:

Province of New Brunswick, Department of the Environment - Water  
Resources, Fredericton, N.B., Canada E3B 5H1

Hydro Quebec, 75 West Dorchester Boulevard, Montreal, Quebec,
