Proceedings of the Eastern Snow Conference

Printed and Bound in Canada

Cover Printed in United States of America

The Eastern Snow Conference hereby formally
recognizes the passing of Gordon R. Ayer,
Secretary-Treasurer of the Conference for many years
and Secretary Emeritus until his death. The
contents of this volume attest to the longterm
strength of Gordon's work. Our sincere regrets to
Mrs. Ayer and the family.

FORWARD

The 42nd annual Eastern Snow Conference (ESC) was held in Montreal on 6-7 June 1985. This year almost 100 delegates heard 24 papers on topics such as, arctic navigation and sea ice, ice accretion on cables, snow and Inuit place names, snowmelt modelling in various environmental situations, river ice jams, remote sensing of snow and ice, and snow pollution. These papers including 5 poster papers are published in this volume of the 42nd annual Proceedings which also contains the snow survey panel discussion that was held during the meeting and a up-to-date index of all papers presented at the Eastern Snow Conference.

Membership in the Conference is open to all interested individuals. Annual dues are only ten dollars (U.S.) and this includes one copy of the Proceedings, plus any other data distributed by the Conference. Interested individuals are asked to contact the Secretary - Don Dunlap. Additional copies of current Proceedings and all back issues also can be obtained from the Secretary.

I would like to extend my thanks to the members of the ESC and the authors of the Proceedings.

John E. Lewis
Editor

PROCEEDINGS OF THE EASTERN SNOW CONFERENCE

Forty-Second Annual Meeting, June 6 and 7, 1985

TABLE OF CONTENTS

	Page
DEDICATION TO GORDON AYERS	iii
FORWARD	iv
TABLE OF CONTENTS	v
STATEMENT OF PURPOSE - ESC	viii
EASTERN SNOW CONFERENCE OFFICERS	x
REPORT OF RESEARCH COMMITTEE	xi
 SESSION PAPERS	
THE DEVELOPMENT AND ROLES OF THE EASTERN SNOW CONFERENCE	
Peter Adams and Barry McArthur	1
SUMMER 1979: ICE CLIMATOLOGY OF THE CANADIAN ARCTIC	
Balaram Dey	25
AN ANALYSIS OF SELECTED ICE ACCRETION MEASUREMENTS ON A WIRE AT MT. WASHINGTON	
Pierre McComber and John Govoni	34
SIMULATION OF SNOW DEPTH IN A FOREST	
Ming-ko Woo and Peter Steer	44
SNOW AND ICE IN INUIT PLACE NAMES IN THE EASTERN CANADIAN ARCTIC	
Ludger Müller-Wille	55
SPECIATION OF ALUMINUM IN DIFFERENT COMPARTMENTS OF A DRAINAGE BASIN DURING SNOWMELT	
William H. Hendershot, Allain Dufresne, Hélène Lalonde, and Richard K. Wright	58
AN INTEGRATED MODEL OF SNOWMELT QUALITY FOR BOREAL FOREST SITES	
J. Roberge, H.G. Jones, J. Stein and W. Sochonska	69
SOME PHYSICAL PROPERTIES OF SNOWCOVER ON EVOLVING FIRST YEAR SEA ICE	
Gregory B. Crocker and John E. Lewis	84
HUDSON RIVER ICE MANAGEMENT	
M. Ferrick, G. Lemieux, L. Gatto and N. Mulherin	96

RECOMMENDATIONS FOR SITE-SPECIFIC OBSERVATIONS OF RIVER ICE	
T.D. Prowse	111
SNOW ACCUMULATION AND SNOWMELT RUNOFF IN A SUBURBAN ENVIRONMENT	
J.M. Buttle	126
SNOWMELT SIMULATION OF SHORT LIVING SNOWPACKS	
W. Bauwens	139
SNOW COVER IN THE NORTHERN HEMISPHERE, 1967 - 1983	
Donald R. Wiesnet, M.S. Varnadore, and Michael Matson	156
ANALYSIS OF SNOW LOADS DUE TO DRIFTING ON MULTILEVEL ROOFS	
Robert S. Speck Jr.	157
COLLECTION OF AEROSOL PARTICLES BY SNOW CRYSTALS	
P.K. Wang and D. Sauter	171
FROZEN PRECIPITATION AND CONCURRENTLY OBSERVED METEOROLOGICAL CONDITIONS	
Michael A. Bilello	177
CONSTITUTIONAL SUPERCOOLING IN NATURAL ICE	
Richard E. Jones	188
ICING STUDIES ON MT. WASHINGTON: AN HISTORICAL PERSPECTIVE	
Kenneth Lee Rancourt	197
COMPUTER INTERFACING OF METEOROLOGICAL SENSORS IN A SEVERE WEATHER AND HIGH RFI ENVIRONMENT	
Kenneth Rancourt, John Govoni, and Alfred Oxtón	205
METEOROLOGICAL AND SNOW COVER MEASUREMENTS AT GRAYLING, MICHIGAN	
R.E. Bates and H.W. O'Brien	212
CORRECTION OF WINTER PRECIPITATION VALUES FOLLOWING A CHANGE OF GAUGE EXPOSURE	
David C. Palmer	230
SURVEILLANCE OF YEAR-ROUND SHIPPING ROUTES IN THE CANADIAN ARCTIC: A CHALLENGE TO THE REMOTE SENSING COMMUNITY	
Balaram Dey	237
CHEMICAL MIGRATION IN MID LATITUDE SNOW PACK	
A.W. Hogan, S. Barnard, D. Wolfe, M. Du Bois and A. M. Pitaniello	243
ABNORMALLY ENRICHED ELEMENTAL CONCENTRATIONS IN URBAN SNOW	
J.J. Drake, S.J. Vermette, S. Landsberger, and A. Simsons	255

EFFECTS OF VARYING SNOWPACKS AND WATERSHED CONDITIONS ON SNOWMELT RUNOFF RESPONSE J.J. McDonnell and C.H. Taylor	262
SNOWPACK DEPLETION IN A FORESTED CATCHMENT J.M. Buttle and J.J. McDonnell	267
HYDROTHERMAL DECAY OF ICE JAMS T.D. Prowse and P. Marsh	272
VARIATIONS IN IONIC COMPOSITION BETWEEN HIGH ARCTIC LAKE AND LAND SNOWPACK Craig Allan and Peter Adams	277
ARCHIVE OF THE ICE RECORD FROM KNOB LAKE, QUEBEC, 1954 TO PRESENT Peter Adams	284
IS SLEET A CONTACT NUCLEATION PHENOMENON? A.W. Hogan	290
PANEL DISCUSSION - SNOW SURVEY	295
SNO-FOO AWARD	302

THE EASTERN SNOW CONFERENCE

The Eastern Snow Conference (ESC) is a joint US/Canadian organization which was founded in the 1940's. It is an association of people interested in research and applied aspects of the study of ice in all its forms, especially snow. The principal activities of the ESC are the organization of an annual meeting, in the US or Canada in alternate years, and the production of the annual Proceedings of the Eastern Snow Conference, which now form more than forty volumes deposited in libraries throughout North America and Europe. The annual meetings are sometimes held in major cities such as Washington, Montreal, Toronto or Boston and sometimes in smaller cities such as Peterborough, Oswego, Portland or Fredericton.

The members of the ESC are a very diverse and, over the years, fluctuating, group. They include professional snow surveyors, engineers and technologists (of various stripes), professors and students, hydrologists and biologists, people responsible for keeping roads clear of snow and rivers free of ice, and others interested in snow and agriculture. The members are drawn from all parts of eastern North America, they live and work in places which extend from Maryland to the high Arctic. The line between the territory of the ESC and its counterpart in the other half of the continent, the equally venerable Western Snow Conference, is not a precise one. Residents of the Mid-West and of the Prairie provinces seem to join one or the other organization on the basis of personal whims such as a preference for Reno, Nevada over Bangor, Maine as a desirable meeting place...

In recent years, the annual ESC meetings have included sessions on snow and small mammals, snow and buildings, river ice, permafrost, remote sensing of snow and ice, biology of sea ice, snow and ice on lakes, measuring snow and ice, hydroelectricity and snow and ice, glaciers, icebergs, snow and farming etc. etc.

Eastern Snow Conference est une organisation internationale canado-américaine fondée dans les années '40. Elle regroupe des gens qui ont des intérêts communs dans l'étude théorique et pratique de la glace sous toutes ses formes, en particulier sous la forme de neige. Eastern Snow Conference a comme activités principales d'organiser sa réunion annuelle en alternant le site du Canada aux Etats-Unis, d'en produire les comptes-rendus qui se montent maintenant à plus de quarante volumes que l'on peut trouver dans les librairies de l'Amérique du Nord et d'Europe. La réunion annuelle peut se tenir tout aussi bien dans des villes importantes comme Washington, Montréal, Toronto ou Boston comme dans des plus petites comme Peterborough, Oswego, Portland ou Frédéricton.

Les membres de Eastern Snow Conference représentent un grand nombre de domaines reliés à la neige et la glace. On y retrouve des spécialistes des relevés de neige, des ingénieurs et des techniciens, des professeurs et des étudiants, des hydrologues et des biologistes, des gens ayant la responsabilité d'entretenir les chemins en hiver ou de contrôler la glace en rivière, d'autres ayant quelqu'intérêt dans la neige et l'agriculture. Tous ces membres viennent de l'est de l'Amérique du Nord et peuvent y habiter du Maryland, U.S.A., à l'Arctique. D'ailleurs la ligne qui sépare le territoire de Eastern Snow Conference à son pendant de l'ouest la vénérable Western Snow Conference est assez diffuse. Les habitants du centre-ouest américain ou des Prairies peuvent choisir de rallier une ou l'autre organisation sur une base très personnelle comme de préférer d'aller à Reno, Nevada plutôt que Bangor, Maine pour leur colloque annuel.

Dans les dernières années, aux réunions annuelles de Eastern Snow Conference on a tenu des sessions sur la neige et les petits mammifères, la neige et le bâtiment, la glace de rivière, le pergélisol, la télédétection de la neige et de la glace, la biologie de la glace marine, la neige et la glace lacustres, la mesure de la glace et de la neige, l'hydroélectricité et la glace et la neige, les glaciers, les icebergs, la neige et l'agriculture, etc...

EASTERN SNOW CONFERENCE OFFICERS
1984 - 85

PRESIDENT
Peter Adams
Watershed Ecosystem Programs
Peterborough, Ontario K9J 7B8

VICE-PRESIDENT
Hilda J. Snelling
Meteorology Section
USAF/ETAC
Building 859
Scott AFB, Illinois 62225

PAST-PRESIDENT
Donald R. Wiesnet
Satellite Hydrology Assoc.
103 Beulah Rd. N.E.
Vienna, Virginia 22180

SECRETARY - Don Dunlap
335 George St., Room 202
New Brunswick, N.J. 08901
U.S.A.

EDITOR (1985-87)
John Lewis
Dept. of Geography
McGill University
Montreal, Quebec, H3A 2K6
Canada

EXECUTIVE COMMITTEE
Jean-Louis Bisson
Jim Foster
Nabil Elhadi

RESEARCH COMMITTEE
Don Taylor (Chairman)
Tim Pangburn
Dave Dougherty

EQUIPMENT COMMITTEE
Dick Terzi (Chairman)
John Metcalfe
John Govani

SNOW SURVEY SCHEDULE COMMITTEE
Andre Frechette*
Hugh Greenan
Phil Meier

LOCAL ARRANGEMENTS COMMITTEE
Jean-Louis Bisson (Chairman)
Gerry Jones
John Lewis

* He is retiring - a replacement will be named.
