

INDEX

to

THE PROCEEDINGS OF THE EASTERN SNOW CONFERENCE

1952 through 1969

This index is an attempt on the part of the Research Committee to increase the availability and utility of the information in papers presented at the annual meetings. The subject classification is tentative and represents the compromise between detail and simplicity which appeared appropriate to the current committee.

We would appreciate your comments and suggestions for future editions.

The Research Committee
R.B.B. Dickison
C. Anthony Federer
Denton E. Nichols
Arthur R. Eschner, Chairman
