

Arranged in the following categories:

1. Properties of snow and ice
2. Precipitation and accumulation
3. Snowpack measurement
4. Snowmelt
5. Streamflow
6. Lake and river ice
7. Highways and buildings
8. Soil water and frost
9. Remote sensing

1. PROPERTIES OF SNOW AND ICE

- Adams, W.P., W. Bar and F.H. Nicholson, 1974. Annotated bibliography of the McGill Sub-Arctic Research Papers and Theses., 1954-74. McGill Sub-Arctic Res. Papers, 26, 98p.

2. PRECIPITATION AND ACCUMULATION

- Findlay, B.F., 1975. Maps for the Canadian Hydrological Atlas. AES Toronto. Proc. Western Snow Conf. 1975.
- Findlay, B.F. and R.A. Treidl, 1975. Climatic aspects of sub-polar regions. Available from authors AES Toronto. Paper presented at Int. Soc. of Biomet Congress, Washington, D.C. August, 1975.
- Glahn, H.R., and J.R. Bocchieri, 1975. Objective estimation of the conditional probability of frozen precipitation. Monthly Weather Review. 103 pp. 3-15.
- Mikhaylova, Z.A. and V.I. Ponomarev, 1971. Results of an operational test of M-100 radio-electronic snow gages. Soviet Hydrology 1971. 320-324.
- Turcan, J., 1975. Determination of errors of precipitation measurement, caused by wind (in Slovak). VODOHOSPODARSKY CASOPIS XXIII, No. 6, pp.630-633, 1975. Summary in English.

3. SNOWPACK MEASUREMENT

- Colbeck, S.C., 1975. On the use of tensiometer in snow hydrology. In Press. Journal of Glaciology.
- Colbeck, S.C., 1975. A theory for water flow through a layered snowpack. W.R.R. 11. 261-266.
- Santeford, H. and J. Smith, 1973. Advanced Concepts and Techniques in the Study of Snow and Ice Resources. Proc. of an Interdisciplinary Symp. Nat. Acad. of Sc., Washington, D.C.
- Turcan, J., 1975. Areal variability of the snow storage on the territory of Slovakia (in Slovak). VODOHOSPODARSKY CASOPIS XXIII. No. 4-5 pp. 321-331, 1975. Summary in English.
- Turcan, J. and H.S. Loijens, 1975. Accuracy of snow survey data and errors in snow sampler measurements. 32nd Meeting Eastern Snow Conference, 1975.
- Wassall, R.B., 1973. A snow cover climatology for Philadelphia based on the winter seasons 1910-11 to 1969-70. Weatherwise, Vol. 26, No. 5, 210-14.

4. SNOWMELT

- Carlson, R. et al., 1974. Modelling snowmelt in an Arctic coastal plain. Institute of Water Resources. U. of Alaska. Report No. 1, WR-43.
- Colbeck, S.C., 1974. On predicting water runoff from a snow cover. Symp. on the Advanced Concepts and Techniques in the Study of Snow and Ice Resources. 2-6 Dec. 1973. (Compiled by Santeford and Smith, Natnl. Acad. Sciences, Wash., D.C.) p.55-66.
- Colbeck, S.C., 1975. Analysis of hydrologic response of rain-on-snow. CRREL Research Report 340.
- Dunne, T., A.G. Price and S.C. Colbeck, 1975. The generation of runoff from Sub-Arctic snowpacks. Submitted to W.R.R.
- Martinec, J., 1975. Sub-surface flow from snowmelt traced from tritium. W.R.R. 11(3). 496-498.

Zuzel, J.F. and L. McCox, 1975. Relative importance of meteorological variables in snowmelt. W.R.R. 11(1). 174-176.

7. STREAMFLOW

Loijens, H.S., 1974. Streamflow formation in the Mistaya River Basin, Rocky Mountains, Canada. Proc. Western Snow Conference, April 16-20, 1974, Anchorage, Alaska. pp.86-95.

8. LAKE AND RIVER ICE

No submissions.

9. HIGHWAYS AND BUILDINGS

Colbeck, S.C., 1976. Wet snow loads on roofs. In preparation.

Glukhov, V.G., 1971. Evaluation of ice loads on high structures from upper-air observations. Soviet Hydrology 1971. 223-228.

10. SOIL WATER AND FROST

No submissions.

11. REMOTE SENSING

Barnes, J.C. and C.J. Bowley, 1974. Handbook of Techniques for Satellite Snow Mapping. ERT Document No. 0407 - A. Dec/74.

Bissell, B.C. and Z.G. Burson, 1974. Deep snow measurements suggested using cosmic radiation. W.R.R. 10. 1243-1244.

Grasty, R.L., H.S. Loijens and H.L. Ferguson, 1974. An Experimental Gamma-ray Spectrometer Snow Survey over Southern Ontario. IN: Advanced Concepts and Techniques in the Study of Snow and Ice Resources. Academy of Sciences, Washington, D.C. pp. 579-593. 1974.

Loijens, H.S., 1974. Comparison of water equivalent of snow cover from airborne measurement of natural gamma radiation and from a snow course network. Proc. Eastern Snow Conf. Feb. 7-8, 1974, Ottawa, Ontario. pp. 112-122.

Loijens, H.S., 1975. Measurement of snow water equivalent and soil moisture by natural gamma radiation. Canadian Hydrology Symposium. Aug. 11-14, 1975. Winnipeg.

McGinnis, D.F., J.A. Pritchard and D.R. Wiesnet, 1975. Snow depth and snow extent using VHRR data from the NOAA-2 satellite. NOAA Technical Memorandum NESS 63, U.S. Dept. of Commerce, Washington, D.C. 1975.
