PROCEEDINGS OF THE  
THIRTY-SECOND ANNUAL  
EASTERN SNOW CONFERENCE

FEBRUARY 6, 7, 1975  
MANCHESTER, NEW HAMPSHIRE

## FOREWORD

In keeping with the objectives of the Eastern Snow Conference "to collect, disseminate and analyze data relating to snow and ice," The Executive Committee of the Conference is pleased to submit this copy of Proceedings, Volume 20, in recognition of the Thirty-Second meeting of the Conference.

The Eastern Snow Conference is an informal group of businessmen, engineers, foresters, hydrologists, scientists and educators from Eastern United States and Canada, which meets annually at some pre-selected location in New England, New York, or Canada. The purpose of these meetings is the interchange of information related to snow, ice, frost, hail, and other phenomena associated with the winter season.

The 1975 meeting was held in Manchester, New Hampshire. In 1976, the group plans to meet in Glens Falls, New York, in early February.

Membership in the Conference is open to all interested individuals. For the modest annual dues of five dollars, each member receives one copy of the Proceedings, together with any other data distributed by the Conference. Additional copies of current Proceedings and copies of many of the back issues are available from the Secretary.

Publication of these Proceedings was made possible in part by Corporate Memberships in the Conference held by the following:

Chas. T. Main, Inc., Prudential Center, Boston, Mass. 02199

Mr. Charles D. Hopkins, Jr.  
President, Eastern Snow Conference

Dear Charlie:

It is with the greatest of pleasure and a bit of nostalgia that I address to you greetings for the Eastern Snow Conference from the Western Snow Conference. We wish for you the ultimate in successful meetings. May your membership and visitors provide a large and attentive audience for an excellent program, excitingly significant papers delivered with enthusiasm by their well-qualified authors. May communication and good fellowship abound. May the anecdotes be credible and the jokes pertinent.

The bearer of these greetings is my designated representative to your meeting and a very special person in the Western Snow Conference. I commend him to you. His interest in seeing that the twain of East and West continue to meet is outstandingly praiseworthy. We hope his counterpart or counterparts can join us in San Diego in 1975 and Calgary in 1976.

I send my kindest personal regards.

Sincerely,

Archie M. Kahan  
General Chairman
